Rowayton's own Grant McCracken, anthropologist and consultant who now trains some of the world's biggest companies and consulting firms, argues that the American corporation needs a new professional. It needs a Chief Culture Officer. And, you ask... what would a CCO do?... would keep a finger on the pulse of contemporary cultural trends—from sneakers to slow food to preppies—while developing a systematic understanding of the deep waves of culture in America and the world. And what does that really mean to me?... expand your horizons—and your business. If your job involves marketing, inventing, selling, or simply investing in companies that make stuff, this book is a must read, and Grant McCracken is the man to meet... Courtesy reservation, please.
